

ANNUAL REPORT

The Sumati Foundation is committed to transparency and accountability throughout its work. This page includes the Foundation's annual reports, audited financials and annual tax filings, and tax-exempt status filings and certifications.

The annual reports highlight the Sumati Foundation's work and achievements that are made possible by our supporters and partners.

With a view to build sustainable value based societies, the people from interested and poorest communities were provided trainings, empowering them to promote the programs and policies under rural development sector. Details of the programs given below:-

7. Cycle distribution for PWDs

8. HEALTH & EDUCATION

Our approach to health and education emphasizes prevention. By identifying small measures that individuals and communities can take to improve their health, we are going to improve education in the poorest area and then scaling those measures to impact a greater number of people, we aim to prevent years of chronic disease and thousands of dollars in health care costs, and provide families and communities with knowledge of how to live healthier.
